PE2PRINT[®]-Digital

Are you buying Röchling's award winning PE2PRINT[®] and/or PP2PRINT[®]-PPCO?

Röchling's PE2Print product line is expanding and reaching out to the distribution market to make them aware of this award winning product. With HDPE stock on the floor in a large number of colors and available up to .090" out of stock and up to 1/4" in custom runs are available.

This product is corona treated to a 56 dynes level when ordered for a printing application. Remember this product has a shelf life for printing and should be printed as soon after receiving as possible.

Many customers take advantage of the many colors of thin gauged HDPE that Röchling keeps on the floor in our Orangeville facility. Not only for printing applications but for those that just require colored HDPE. Please consider Röchling for all your thin gauged HDPE or PP requirements.

Röchling's PP2PRINT[®] Digital is replacing Vinyl and/or Polystyrene.

PE2PRINT is great in flatbed digital printing. White UV is stocked in 48" x 50" in .023" & .040" all corona treated for Flatbed Digital Printing.

PP2PRINT[®]-PPCO.....Clarified Random Co-Polymer Polypropylene

Röchling is re-introduced their PP2PRINT[®]-PPCO Polypropylene material which is available with minimum runs. PP2PRINT[®]-PPCO is:

- Is made of clarified random co-polymer grade polypropylene resin to give it contact to clarity properties and toughness at room temperatures.
- Is ideal for stationery, display, packaging and indoor sign applications.
- Is not stocked but with a minimum order of 3,000 pounds we will custom extrude any color and thickness between 0.016"-0.040" in a soft matte light 'grain' texture on both sides.

Produced By George Southard / G S Sales 317-595-6750

RÖCHLING

How do we ship from Canada?

Freight Options:

FOB Dallas, North Carolina, 28034

We are able to ship your goods to the Dallas, NC on our transfer truck where we can ship out via any carrier. We offer 'pre-pay and charge' or you can supply us with a 'collect' account number. Please note that our transfer trucks to Dallas, NC run 2-3 times a week.

FOB Tonawanda, New York, 14217

We are able to ship your goods to Tonawanda, NY on our transfer truck to the ODFL (Old Dominion Freight Lines) distribution center. From there, your goods can only ship via ODFL; either 'pre-pay and charge' or you can supply us with a collect account number. Please note that our trucks to Tonawanda, NY run 1-2 times a week.

Why do we require your Fed Id#?

To ensure a smooth transaction, IRS (tax identification numbers) are required for all parties to the transaction. The IRS number tells US Customs who is taking responsibility for the import, as well as giving them the tracking ability they require. Failure to comply results in monetary penalties and potential delay for the shipment.

It is necessary for Röchling to have all IRS number in advance of sending the shipment.
