Please always feel free to contact any of the companies that G S Sales represents directly. They all have many talented people that can help you with product and market information.

Please also contact any of these companies if you do not have current literature or pricing from them. Most of them have sales and marketing information to help you in your sales efforts.

Lastly, please do not ever hesitate to contact G S Sales directly. We would be happy to do a seminar for you on one or all of the companies that we represent. We would also be very happy to work with you on a particular job or marketing project. We have many tools that may assist your efforts to further penetrate your marketplace.....George Southard
