

KYDEX® XD 3D Laminate

For flat lamination and membrane pressed applications

Introduction

KYDEX® XD is a thermoplastic 3D laminate giving designers the ability to incorporate compound corners, logos, and wire management holes while eliminating unsightly seams and the need for edgebanding typically associated with HPL / TFM surfaces. Its integral color and superior impact resistance minimizes costly maintenance associated with other laminates.

General Information

Extreme durability (XD), superior impact, membrane pressable thermoplastic 3D laminate with integral color from 0.76mm-1.02mm (0.030"-0.040") thickness. While providing good definition it surpasses vinyl overlays, high pressure laminates and melamine in resistance to surface and edge impact.

Suggested Applications

- Store fixtures
- Checkout counters
- Exhibits and displays
- Moldings
- Transaction surfaces
- Workstations
- Logo and trademark panels
- Kiosks
- Cabinetry
- Door and drawer fascias
- Pedestals and stands
- Gondolas
- Tabletops
- Flat laminated panels

Features

- Tough and durable
- Resistant to cracking and chipping
- Solid, integral color
- 3500+ custom colors
- Resistant to a wide range of chemicals
- Abrasion resistant
- Fire retardant
- Excellent fabrication qualities
- Very low moisture absorption
- Membrane pressable
- Flexibility allows small radius bends
