

SAFE PASS® Aero revolutionizes the Trucking Industry!

Röchling introduces SAFE PASS® Aero : Over 30 years of proven spray suppression technology combined with our new aerodynamic design creates a revolutionary new mud flap product for the trucking industry.

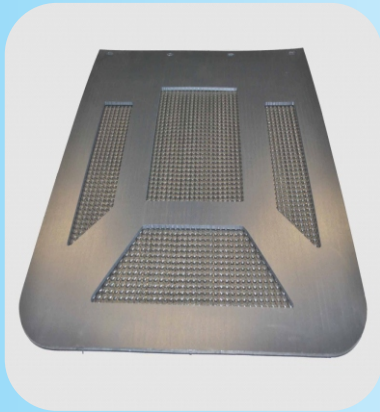

Benefits of SAFE PASS® Aero:

- Aerodynamic Design
- Reduced Drag
- Improved performance
- Spray Suppression
- Improved visibility
- Safer operation when wet
- Cleaner equipment
- Durability
- Enhanced bracket support
- Anti-Sail
- Anti-Curl

Röchling Engineering Plastics offers a comprehensive product line in the USA and Canada of Mud Flaps and accessories for the trucking industry.

Size	Color	Part Number
24 x 24	Black	107664
24 x 30	Black	107665
24 x 30 (left)	Black	107662
24 x 30 (right)	Black	107663
24 x 36	Black	107666

Wind Tunnel Tested:
SAFE PASS® Aero was tested at the Oran W. Nicks Low Speed Wind Tunnel at Texas A&M University. Test Results indicated that SAFE PASS® Aero achieved a 6% reduction in drag when compared to a standard Spray Guard® mud flap.

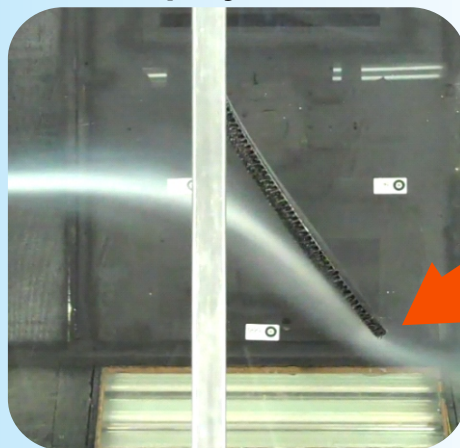

SAFE PASS® Aero and Spray Guard® mud flaps side by side comparison:

SAFE PASS® Aero

Spray Guard®

The difference is clearly visible. Smoke and Air pass through the SAFE PASS® Aero mud flap.

SAFE PASS® Aero allows air to pass through, reducing drag while maintaining the spray suppression qualities that are synonymous with all Spray Guard® mud flaps.

Röchling Engineering Plastics offers a comprehensive product line in the USA and Canada of Mud Flaps and accessories for the trucking industry.
