Palram Americas, Inc. Proposition 65 Notice

Palram Americas, Inc. strongly values its relationships with its customers and wants to be certain we abide by, and provide resources to our customers regarding relevant environmental health and safety regulations.

Palram Americas, Inc. issues the following notice for your reference regarding compliance with California Proposition 65 ("Prop 65"). New Prop 65 warning label requirements apply to the sale of products in the state of California. These new regulations are effective August 30, 2018. The new regulations update warning requirements for products sold in California that contain certain chemicals identified by the state of California to cause reproductive harm or cancer. Manufacturers of polycarbonate and PVC sheet products are required by the Prop 65 regulation to comply with the new labeling regulation for products that are sold in California. When such products contain chemicals on the Prop 65 list and exposure to the listed chemicals are above the Maximum Allowable Dose Levels (MADLs) or No Significant Risk Levels (NSRLs) published by the Office of Environmental Health Hazard Assessment (OEHHA), a Prop 65 compliant warning label is to be applied to the product.

Palram Americas, Inc. has Prop 65 compliant labels available upon request to distribution customers that choose to sell polycarbonate and PVC sheet products and thus label certain of their products for sale in and into California. The regulations also require that Palram Americas, Inc. place a warning in the Product Safety Data Sheets (PSDS) for products that contain OEHHA listed chemicals above the MADLs or NSRLs. Updated PSDS's are enclosed with this letter for reference.

Thank you for your continued business, and for your attention to important regulatory compliance issues.
