

Get a better bond with Röchling welding rod

Röchling is the world leader in the manufacturing of thermoplastic welding rods and sheets.

Don't compromise the integrity and look of your product by mixing and matching your sheets and welding rod. Röchling offers a full range of thermoplastic products that give you a better bond and optimal color match by using the same resin source. Ideal for tank, fume hood and wet bench construction, Röchling sheets and rods are manufactured to the highest production standards in the market, and we offer a variety of lengths and colors to meet your fabrication needs.

Welding Rod Products

- Polystone® G (HDPE)
- Polystone® G (HDPE) Pipe Grade
- Polystone® P Copolymer
- Polystone® P Homopolymer

Specifications

- Standard diameters:
 - 1/8" (3mm) round
 - 5/32" (4mm) round
 - 3/16" (5mm) round
 - Diameter tolerance: ±10%
- Available lengths:
 - 30 lb spools
 - 15 lb coils
 - 10 ft lengths
- Color Choices:
 - Natural
 - White
 - Röchling Grey (heat stabilized)
 - Euro gray
 - Black
